Attn: Nell Green

Subject: Report of Data: 52523

Results in this report apply to the samples analyzed in accordance with the chain of custody document. This analytical report must be reproduced in its entirety.

Dear Ms. Green:

Two water samples were received December 29, 2006. Written results are being provided on this January 10, 2007, for the requested analysis. All holding times were met.

For the EPA 314.0 analysis, the water samples were prepared according to the method. Due to high electrical conductivity values, samples 112184 and 112188 were diluted 40 fold. The PQLs were adjusted accordingly. All other method criteria were met.

No unusual problems or complications were encountered with this sample set.

If you have any questions or require further information, please contact us at your convenience. Thank you for choosing APPL, Inc.

Sincerely,

Leonard Fong, Ph.D, Laboratory Director
