Chem Shack Waste Units

Location TA-2
Type of Unit Waste handling
Unit use Treatment
Operational status decommissioned
Period of use 1940's – 1971

Mat managed mixed

Haz release expected
Rad " "

Unit Desc.
A small chem shack TA-2-3 was located to the east of the main reactor building. The work in this shack did not involve any reactor activities. It was used for a variety of purposes involving radioactive material & chemicals. Associated with the shack were ducts, an off gas stack, & industrial drains. The building was removed in 1971

Waste Desc
The wastes probably included residuals of uranyl nitrate, perchloric acid, & other acids & solvents.

Release Desc
Release information is lacking
