ER Record I.D.# 0005291

DATE RECEIVED: 07-13-92 PROCESSOR: LD

Part I: Complete all fields; indicate if not applicable or appropriate; please write legibly.

DOCUMENT TO: File: TA-15-80 DOCUMENT DATE: 03/01/65

ORIGINATOR NAME: A E Russo ORGANIZATION: ENG-3

SYMBOL: — PAGE COUNT: 1

SUBJECT/TITLE: Septic Tank R-80, TA-15

RECORD TYPE (Circle relevant type for primary record; type of attachments should be selected on *Keywords List*):

Analytical Data	FAX	Map	Plan	Study
Chain-of-Custody	Figure	Memo	Procedure	Telephone Record
Computer Output	Form	Microform	Purchase Request	Transcription
Contract	Interview	Notebook	Receipt Acknowledgment	Video
Centralized Distribution	Letter	Personal Notes	Report	Work Plan
Drawing	Logbook	Photo	Review	Other

RECORD CATEGORY: P
(P for Programmatic or R for Reference)

RECORD PACKAGE #: —

RECORD FILMED (Y/N): Y

RECORD LOCATION: —
(Indicate location of record if not filmed.)

Part II: Complete all fields; indicate if not applicable or appropriate; please write legibly. Use *ER Record Index Form Attachment Sheet* if needed.

ATTACHMENTS FILMED (Y/N): —
(Were attachments to this record filmed?)

LOCATION: —

OFFICE MEMORANDUM

TO : File: TA-15-80

DATE: March 1, 1965

FROM : S. E. Russo

SUBJECT: SEPTIC TANK R-80, TA-15

SYMBOL : ENG-3

RUSSO
MONTOYA
FILE TA-15-80

Info, History, changes to St Fe Plans, etc

The subject septic tank was built approximately September 1944, to serve Building R-1.

In September, 1951, Building R-23 was moved to a location to the south of Building R-1; in November, 1957, on Lab Job 2060, a rest-room addition was built on Building R-23, and the sewer line connected to septic tank R-80. (Reference Drawing ENG-C 17352).

Building R-1 was abandoned in place by authorization of the AEC, in a memorandum dated June 19, 1961; the building was later demolished and burned, on WR #6-690-012, dated December 4, 1962.

The rest-room facilities in Building R-23 were removed on WO #6-8404-16, dated November 18, 1964; this resulted in septic tank R-80 becoming inactive.

GMX-Division returned jurisdiction of septic tank R-80 to the Engineering Department, and it was subsequently returned to the AEC by memorandum dated February 8, 1965, with a request that permission be granted to abandon it in place, and to remove the costs from the Plant and Equipment accounts of The Zia Company.

On February 19, 1965, C. R. Michel of The Zia Company sent a memorandum to the AEC, stating that none of the items returned to the AEC by Russo's memorandum dated February 8, 1965, were in the accounts of The Zia Company.

On February 24, Russo phoned Michel to inform him that septic tank R-80 was still considered to be active; J. R. Jones of Michel's office later phoned to inform Russo they had retired septic tank R-80 on June 19, 1961, at the time Building R-1 was abandoned in place, not realizing that the tank also served Building R-23.

Michel and Russo agreed it would not be proper to reactivate the tank in Zia's accounts, after having requested authority from AEC for its retirement.

It was subsequently learned that the rest-room facilities in Building R-23 were removed, and that the septic tank R-80 was no longer required.
