Santa Fe, NM 87501

SUBJECT: 1989 Biennial Report

Dear Dr. Gordon;

This letter is submitted as a formal reply to your earlier questions on The Rinchem Company, Inc.'s failure to submit the above-referenced report despite its status as a Part B Permitted TSD (NMD002208627).

Instructions for the referenced report state clearly that "You are not required to file the 1989 Hazardous Waste Report if, during 1989, this site was NOT a RCRA Large Quantity Generator and did NOT treat, store, or dispose of RCRA hazardous wastes on site in units subject to RCRA permitting requirements." (Page 2)

No commercial RCRA regulated material was manifested to or from this facility during this period. Our own generation of waste was below the reporting threshold.

Rinchem returned the original "no report" notification as required.

Should you have questions, please call either Tim Kimball or Deke Moore at (505) 345-3655.

We care,

Tim Kimball
Hazardous Waste Coordinator
