RECEIVED
SEP 2009
NMED Hazardous Waste Bureau

I, _____,
have received 119 signatures on petitions requesting a ***Confined Burn Facility at Los Alamos National Laboratory***, collected by the Embudo Valley Environmental Monitoring Group.

Signature:

Date:

Representing:

31970

PETITION FOR CONFINED BURNING FACILITIES AT LANL

We, the undersigned, state:

1. All people, plants and animals are intricately tied to the health of our air.

2. Historic and on-going operations at Los Alamos National Laboratory (LANL) threaten our cultural, spiritual and ecological survival.

3. Our local, state and federal government agencies have a duty to protect the public health and welfare by setting and enforcing laws and regulations that protect our air.

4. Healthy communities and ecosystems require clean, innovative and life-affirming science and technology that will benefit the economy, the future and the health of all.

5. We recognize and respect that air does not seek or uphold political, social, cultural or economic boundaries.

To ensure the good health of our air, we demand that in 2009 LANL stop all open burning of hazardous waste and install confined burn facilities that will limit hazardous air emissions.
