Subject EID visit to LANL July 1-3

Discussion Tony cannot support those dates due to NOD response to EPA. I said we didn't want to tie up his staff, all we wanted was to look for treatment or storage ahead of the discharge points. Gave Tony HWMR-2 Sec 201.A.2.c. and 40 CFR 261.4.(a)(2) "comment" references. Tony said Peter had discussed granting LANL interim status for the incinerator and would go that way to justify the trial burn. LANL expects to dispute pre-NPDES treatment facilities as RCRA units. I told Tony to tell DOE they could not support 1-3 July and propose alternate dates. We will respond but delays will impact the permit.
