Subject: admin. file for LANL appeal particularly prehearing

Discussion:
① ~~did you~~ which revisions; last revisions all others working drafts; hearing based on last revision
② draft built on everything up to then
trial burn ~~part~~ data not looked
whole bookcase except SWMU report
all Part B applications; became more focused which iterations
③ probably last 2 part B revisions 4.0 + 4.1
Caveat built up over time trial burn report published before revision 4.0 + 4.1 but referenced in 4.0 + 4.1

Conclusions or Agreements:

restrict to revision 4.0 + 4.1 + trial burn report
may need caveat of building up familiarity

Need to look at file
will try to get to determine prehearing conference

Distribution: separate bin changes; g
JK
