TABLE OF CONTENTS

DISCLAIMER ii

FOREWORD iii

ABSTRACT iv

LIST OF FIGURES vii

LIST OF TABLES vii

ACKNOWLEDGMENT viii

CHAPTER 1. INTRODUCTION 1

CHAPTER 2. CHEMICAL AND MATHEMATICAL CONCEPTS 3
- Component and Species Definitions 3
  - Components 3
  - Type I Components as Species in Solution 3
  - Type II Other Species in Solution or Adsorbed 3
  - Type III Species with Fixed Activity 4
  - Type IV Finite Solids 4
  - Type V Possible (Undersaturated) Solids 4
  - Type VI Excluded Species 5
- The Pre-Defined Set of Components 5
- Oxidation/Reduction Reactions 5
- General Problem Formulation 6
- Example Problem without a Solid Phase 9
- Example Problem with a Solid Phase and with a Gas Phase 13
- Adjustments to Equilibrium Constants 17
- Temperature Corrections of Equilibrium Constants 17
- Activity Coefficient Corrections of Equilibrium Constants 18
- Activity of H_2O 20
- Obtaining Total Dissolved Carbonate from Alkalinity 20

CHAPTER 3. ADSORPTION MODELS 24
- Naming and Numbering Surface Species 24
- Non-Electrostatic Adsorption Models 26
  - Activity K_d Adsorption Model 26
  - Activity Langmuir Adsorption Model 27
  - Activity Freundlich Model 28
  - Ion Exchange Adsorption Model 29
- Electrostatic Adsorption Models 30
  - General Implementation of Electrostatic Models in MINTEQA2 . 32
  - Constant Capacitance and Diffuse-Layer Models 34

Triple-Layer Model 38

CHAPTER 4. USING MINTEQA2 AND PRODEFA2 44
General Features and Organization of MINTEQA2 and PRODEFA2 44
Running PRODEFA2 for the First Time 47
Detailed Explanation of PRODEFA2 Options 50
Main Menu Option 1: Edit Level I 50
Main Menu Option 2: Edit Level II 56
Main Menu Option 3: Edit Level III 67
Main Menu Option 4: Edit Level IV 70
Main Menu Option M: Multi-Problem Generator 74
Main Menu Option X: Exit 74

CHAPTER 5. THE MINTEQA2 OUTPUT FILE AND ERROR DIAGNOSTICS 76
Error Diagnostics 77
MINTEQA2 Error Codes and Messages 77

REFERENCES 82

APPENDIX A. THE THERMODYNAMIC DATABASE USED BY MINTEQA2 84
The Component Database File 85
Format of Database Species Entries 87
Examples of Entries in the Thermodynamic Database Files 93

APPENDIX B. NEWTON-RAPHSON APPROXIMATION METHOD 96

APPENDIX C. MINTEQA2 MODEL DISTRIBUTION 97
Introduction 97
Microcomputer Version 97
DEC VAX/VMS Version 98
Obtaining a Copy of the MINTEQA2 Model Package 98
CEAM Electronic Bulletin Board System (BBS) 99
Technical support 99
Disclaimers . . . . . oc
