RE: Permit Modification Request NMD002208627

Dear Mr. Moore:

The Hazardous and Radioactive Materials Bureau (HRMB) received your request to modify the operating Permit for the Rinchem Company, Inc. facility by letter dated July 7, 1993. This modification is requested for the Permit issued by the New Mexico Environment Department (NMED) on January 8, 1988. We have reviewed the request which is only to change the emergency coordinator and alternate. This modification request is considered a class I modification.

Enclosed is Permit Attachment E to the above referenced permit. Before we can process your modification we request that you incorporate the changes that you are requesting for the emergency coordinators into the enclosed document. Changes appear to be needed on pages 4, 5, and 6 in Section C of the document. However, it is Rinchem's responsibility to identify any additional changes necessary in the document or in other portions of the Permit for the requested modification.

Please send the amended document on a 3.5 inch double sided/high density disc (DS/HD) for wordperfect 5.1 along with a transmittal letter describing the exact Permit changes that are being requested to the attention of Mr. Marc Sides, HRMB, P.O. Box 26110, 525 Camino de Los Marquez, Suite 4, Santa Fe, New Mexico 87502. We will process your modification request upon our receipt of the information.

Cost for a Class I permit modification is \$1000.00 as described in the Environment Improvement Board Hazardous Waste Fee Regulations (HWFR-1), Part 206. Enclosed is the fee calculation worksheet.

Please send the payment in the form of a check made out to **NMED Hazardous Waste Permit Fees** to the address on this letter-head. Please indicate on the remittance the following information: **Activity 50, Rev. Code 169. Deferred Rev, Code 230075 (A 50-OORC 280075).**
