Building Memo's.

Client: LANL

Work order number:

Date and time of call: 7/1/96 8 AM

Your name: Linnea Wahl

Caller (client contact): Bill Frances

Client's phone number: 672-1361

Subject: TA-21 Building 45

Notes:

Bill Frances provided the following information:

- Building 45 was originally built at 15th & Trinity
- It was moved to DP site across from the laundry in July 1947
- It was modified by Zia Co (probably) beginning on 12/15/49 and completed on 2/13/50 – this is the modification that added the sump and pipes to the laundry absorption beds.
- Building 45 was removed (not demolished) by Conwell Electric on August 1954 – probably did not remove sump or pipes; building was probably not contaminated or they wouldn't have been able to sell it to Conwell ?

Bill Frances mentioned that one important source of information, Bill Merriman (former DP site director) had been in a car accident and although he is recovering, may not be able to provide historical information.

Action Items:	Who:	When:
Incorporate information into ER Site Report, if appropriate	T. Santo

Work order number: CL588.02

Date and time of call: 7/8/96 9AM

Your name: L. WAHL

Caller (client contact): Bill Frances

Client's phone number: 672-1361

Subject: TA-21 Building 45

Notes: Building 45 was Built for the same people who ran the radiochemistry laboratory in Bldg 33. May have been the same waste streams, but may have ~~have~~ been a completely different process that they wanted to try in Building 45. B. Frances did not know what chemicals would have been used in Bldg 45.

Action Items:	Who:		When:
Provide information to G. Allen to respond to question from P. Shanley	L. Wahl	COPY ☐	7/8/96
