Person: Becky Coel-Roback	Firm: LANL	Phone No.: 665-5011
		Recorded By: KMC

Subject: MDA V Investigation Report

Remarks:

Regarding 21-027(d)-99 →

Left message:

① Do not include 21-027(d)-99 in the risk assessment for MDA V → if the site doesn't pass risk ~~&~~ 21-027(d)-99 ~~[illegible]~~ included, then it will not be eligible for NFA. Right now, it probably passes risk as an individual site. More beneficial not to include it.

② Since the approved work plan states that 21-027(d)-99 will be investigated, you must report the results of that investigation (methods, locations, analytical results, etc.) The data from the MDA V Report can be used to request NFA at a later date.
