Comments:

Hi Darlene,

Please call me to let me know if this proposed change is approved. Jeff Sanders can provide you with further rationale if needed (call his cell phone 927-0521); he put the detailed work into the work plan for this project.

We will need a back-up confirmation of your approval in writing - an email should do. Send to: mshurter@lanl.gov.

The drill rig is standing by - if there's a problem, we need to know to determine when to bring them back.

Thank you.

Melanee Shurter, Project Leader, EP-CA
