RE: Part B Permitted TSDF operated by Advanced Chemical Transport/Treatment, formerly Rinchem Company, Inc., located at 6137 Edith Blvd. NE, Albuquerque, NM 87107.

**Notification of Approval of Class 1 Permit Modification**

To Whom It May Concern:

As required by the attached letter sent to Advanced Chemical Transport/Treatment (ACT) by the New Mexico Hazardous Waste Bureau, this is a notification of the approval of the Class 1 Permit Modification. This letter is being sent to all persons on facility mailing list given to ACT by the NMED. Please see attached enclosures. This is required by 40CFR 270.42, incorporated by 20.4.1.900 NMAC.

Should you need additional information, please feel free to contact me at 619-571-5737 or [kwood@advancedchemical.net](mailto:kwood@advancedchemical.net).

Thank you.

**RE: FEE ASSESSMENT  
CLASS 1 PERMIT MODIFICATION TO UPDATE CONTINGENCY PLAN  
HAZARDOUS WASTE FACILITY PERMIT  
ADVANCED CHEMICAL TREATMENT, INC.  
EPA ID#NMD002208627  
HWB-ACT-14-001**

Dear Messrs. Moudy and Moore:

The New Mexico Environment Department (NMED) has received the Class 1 permit modification submitted by Advanced Chemical Treatment, Inc. (ACT) and RCI Properties (collectively the Permittees), to update Table H-1 in Attachment H, *Contingency Plan*, of the ACT Hazardous Waste Facility Permit (Permit). Although the letter is dated November 18, 2013, NMED received the letter via email on March 18, 2014. In the future, the Permittees must submit all correspondence related to the Permit via certified mail or hand delivery, as required by Permit Module I, Section I.G.

The permit modification requested changes to the emergency coordinator and alternatives list in Table H-1. NMED concurs that this change is a Class 1 permit modification in accordance with 20.4.1.900 NMAC, incorporating 40 CFR § 270.42(a), and 40 CFR § 270.42, Appendix I, Item B.6.d, and has incorporated this change into the Permit.

NMED also recently became aware that the hospital listed in Attachment H has changed names from *St. Joseph's Northeast Heights Hospital* to *Lovelace Women's Hospital*, and has incorporated this change as part of this Class 1 permit modification as an "administrative and informational change" in accordance with 20.4.1.900 NMAC, incorporating 40 CFR § 270.42(a), and 40 CFR § 270.42, Appendix I, Item A.1.

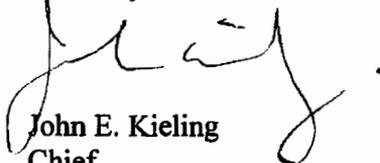

As required by 40 CFR § 270.42(a)(ii), the Permittees must send a notice of the modification to all persons on the facility mailing list, maintained by NMED, within 90 calendar days after the change is put into effect.

The New Mexico Hazardous Waste Permit and Corrective Action Fee regulations, Section 20.4.2.201.F NMAC, require the assessment of a fee to modify a permit. The fee invoice is attached for this modification. Payment is due within sixty (60) calendar days from the date that you receive the invoice in accordance with 20.4.2.301.C NMAC. If you disagree with the fee assessed, you may notify the NMED in writing, at the address above, of the intent to appeal the invoice under the provisions of 20.4.2.302.A NMAC.

If payment is by check, then you must provide the invoice number on the check. If payment is transmitted electronically, then you must submit a letter to Mr. James Valdez, NMED Hazardous Waste Bureau, indicating the invoice number, payment amount, and the assessed activity prior to transferring funds.

If you have any questions regarding this letter, please contact Timothy Hall at (505) 222-9555.

Sincerely,

John E. Kieling  
Chief  
Hazardous Waste Bureau

## PERMIT ATTACHMENT H CONTINGENCY PLAN

### Introduction

This contingency plan is designed to minimize hazards from fires, explosions or any unplanned sudden or non-sudden release of hazardous waste or hazardous waste constituents to air, soil or surface water at, and around Advanced Chemical Treatment's (ACT) Container Storage Facility (**the Facility**). The provisions of the plan shall be carried out immediately whenever there is a threat to human health or the environment.

### Distribution and Amendment of the Plan

The most current version of the contingency plan shall be maintained at the Facility and copies shall be distributed to:

1. Bernalillo County Sheriff's Department
2. Bernalillo County Fire Department
3. State Emergency Response Team
4. ~~St. Joseph's Northeast Heights General~~ Lovelace Women's Hospital

This plan shall be subject to review and amendment if any of the following occurs:

1. The plan fails in an emergency;
2. The Facility's permit is revised;
3. Changes in the Facility increase the potential for fires, explosions, or releases of hazardous waste or alter the response necessary in an emergency. The list of emergency coordinators changes; or
4. The list of emergency equipment changes.

### Arrangements with Local Authorities

Appropriate local authorities have toured the Facility and are familiar with the Facility layout, possible evacuation routes, the general operations of the Facility and the properties and hazards of the waste handled at the Facility. In case of an emergency at ACT such as a fire or hazardous material disaster, ACT has already made an agreement with local authorities designating primary emergency authority. The Senior Operating Fire Department personnel shall assume command of the field Incident Commander and provide direct assistance, planning and information control to the scene. The City of Albuquerque and Bernalillo County Fire Departments shall coordinate joint use of all fire protection services.
