Dear Lt. Col. Chapman:

We have completed a review of your revised RCRA Facility Investigation (RFI) Workplan dated October 19, 1990. We have determined that the RFI Workplan is approvable. Therefore, the approved RFI Workplan consists of the June 25, 1990, RFI Workplan submittal and the October 19, 1990, revised RFI Workplan submittal. In addition, Cannon may initiate a Class III permit modification under 40 CFR 270.42 for those Solid Waste Management Units for which the Region has determined no further investigation is required.

You shall immediately initiate the implementation of this RFI Workplan as approved. Submission of the RFI report detailing the results of the sampling requirements shall be due to EPA September 30, 1991.

If you have any questions, your staff may contact Rich Mayer at (214) 655-6775.

Sincerely yours,

Allyn M. Davis
