JUDITH M. ESPINOSA
SECRETARY

RON CURRY
DEPUTY SECRETARY

April 19, 1991

Colonel David E. Benson, Commander
27th Combat Support Group
Cannon Air Force Base, NM 88103

Dear Colonel Benson:

At the March 18, 1991 meeting between Cannon Air Force Base (CAFB) and New Mexico Environment Department (NMED) regarding the Compliance Order issued to CAFB October 29, 1991, it was agreed that NMED would determine if the test cap requirements were statutory, regulatory or guidance requirements. Enclosed is a copy of the cover page to the Technical Guidance Document titled "Construction Quality Assurance for Hazardous Waste Land Disposal Facilities". This document provides the design, construction and operating specifications or evaluation techniques that generally comply with or demonstrate compliance with the design and operating requirements and the closure and post-closure requirements of the Resource Conservation and Recovery Act regulations for landfills.

CAFB also agreed to send a schedule regarding the efforts being made to delineate the location of Landfill Cell 3. Please submit the schedule by April 26, 1991.

If you have any questions, please contact Mr. David Englert on my staff at 827-0142.

Sincerely,

David Englert for

A. Elizabeth Gordon, Ph.D.
Permitting Supervisor
Hazardous and Radioactive Waste Bureau
