RE: Notice of Deficiency (NOD) on RCRA Facility Investigation Phase II
Cannon Air Force Base, NM752124454

XIII

Dear Mr. Honker

Representatives from Cannon AFB met with your office on 5 March 1992 to discuss modifications requested to Phase II of the RCRA Resource Facility Investigation (RFI) Workplan. As a result of this meeting and your NOD dated 3 Feb 92, we are submitting the attached changes.

The changes show the revisions we have made to the workplan and address your comments which were transmitted in the Notice of Deficiency. Attachment 1 contains a summary of the changes made to the Field Sampling Plan (FSP), and attachment 2 contains the revised FSP. Modifications to the FSP are highlighted in blue pen.

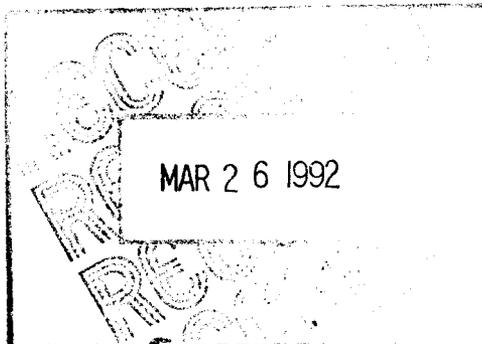

Cannon appreciates your cooperation in this matter. We hope the information provided is satisfactory for final approval of the workplan. You may contact Mr. Jim Richards at (505) 784-4638 if you require additional information.

Sincerely

Thomas N. Chapman
THOMAS N. CHAPMAN, Colonel, USAF
Deputy Commander
