RE: RCRA Facility Investigation (RFI) Quarterly Progress Report
Cannon AFB, NM7572124454

Dear Mr. Gallagher

Cannon AFB is submitting this progress report for the period Dec 91 through Feb 92 in accordance with the requirements of our RCRA operating permit. Actions which were taken during the quarter are listed below.

The field work for the initial 13 solid waste management units (SWMUs) was completed in December. An initial review of the sample results is in progress.

Preparations to begin fieldwork for Landfills 1 and 2 were completed. The work began on 10 Mar 92.

We received your Notice of Deficiency (NOD) regarding the Phase II Work Plan on 7 Feb 92. Representatives from Cannon AFB met with Mr. Rich Mayer on 5 Mar 92 to discuss the NOD. We provided all of the requested changes and submissions in a response dated 11 Mar 92.

If you have any questions concerning this progress report, please contact Mr. Jim Richards or Mr. C. Bruce Hale at (505) 784-4639.

Sincerely

Lawrence Nygren
