RE: Compliance Order 901002

Dear Colonel Benson:

The New Mexico Environmental Improvement Division (NMEID) issued a Compliance Order/Schedule to Cannon Air Force Base (CAFB) dated October 29, 1990. This Order addressed specific concerns regarding closure of Cell 3, Landfill 5. Our records indicate that CAFB satisfied item number one of the Compliance Order/Schedule requiring a detailed explanation of cap construction, but has not formally satisfied the second item of the Order requiring an exact determination of Cell 3's location.

In order to satisfy item number two, CAFB must supply to NMED an official report to include a summary of all investigations conducted to locate Cell 3 and a survey plat, designating its exact location, which is certified by a registered professional land surveyor.

The report and survey plat should be accompanied by CAFB's request to close out the 29 October 1990 Compliance Order and should be submitted to NMED by July 1, 1992.

Please direct any inquiries regarding this matter to Stephanie Stoddard at (505) 827-4300.

Sincerely,

Edward L. Horst  
RCRA Program Manager
