RE: Closure Plan Approval, Cell 3 of Landfill 5 NM7572124454

Dear Ms Sisneros

We received your letter dated 22 September 1992, pertaining to the referenced subject. According to your correspondence, we understand that NMED is approving the August 1992 version of the plans and specifications for the closure and post-closure of Landfill 5, Cell No. 3 at Cannon Air Force Base with 4 conditions. We agree to provide all requested information as stated in these 4 conditions in accordance with the indicated time schedule. With regards to Cell 3, we intend to continue with all necessary actions to cap this cell according to schedule.

We understand that issuance of the post-closure care permit will be deferred until characterization of Landfill 5 is complete. As per your direction, we will therefore disregard the Notice of Deficiency issued after technical review of the post-closure care permit application (dated 9/02/92). We will continue groundwater monitoring under HWMR-6, Part VI, Section 40 CFR 265.90 and all other interim status requirements for Cell 3 of Landfill 5.

If you have any questions, please contact Mr Jim Richards or Capt Mac Crawford at (505) 784-4348.

Sincerely

Christopher S. Long
