Brigadier General Richard N. Goddard  
Base Commander  
27 FW/CC  
100 South DL Ingram Blvd. Suite 100  
Cannon AFB, New Mexico 88103-5214

Dear General Goddard:

In a letter dated April 16, 1993, the Hazardous and Radioactive Materials Bureau (HRMB) of the New Mexico Environment Department (NMED) required Cannon AFB (CAFB) to submit a closure schedule for completing closure activities for Cell 3 of Landfill 5. As stated in that letter, HRMB is hereby modifying the approved closure plan for Cell 3 of Landfill 5 to include the attached closure schedule. HRMB considers 7/4 93 the date for completion of closure activities. Closure certification pursuant to HWMR-7, Part VI, 40 CFR 265.115 is due in our office no later than September 2, 1993. Documentation must be furnished with the certification of closure. This documentation should be published as a final report with adequate and detailed information for HRMB to verify certification of closure.

If there are any questions regarding this matter, please contact Ms. Stephanie Stoddard of my staff at (505)827-4308.

Sincerely,

  
Barbara Hoditschek,  
Program Manager, RCRA Permits  
Hazardous and Radioactive Materials Bureau
