RE: Cannon Air Force Base Landfill 5 Cell 3 Soil Cap Report

Dear Ms Stoddard

As per your telephone conversations with Dr Janice Stowell and Capt Greg Walters on August 30, 1993 we are submitting the report for the Landfill 5 Cell 3 Soil Cap at Cannon Air Force Base. We still have not received the As-Built Drawings from the US Army Corp of Engineers. We have demanded that we receive these drawings in time for their submission to your office to meet the September 2, 1993 deadline.

It is our understanding that after a review of the report you will provide a memorandum to us outlining draft post-closure care requirements to be used until a post-closure permit is issued. This memorandum will also include any comments you have on the report which CAFB needs to address.

If you have any questions, please contact Dr Janice Stowell at (505) 784-4348.

Sincerely

*Gregory J Walters*
