RE: **RCRA Facility Investigation (RFI) Workplan for Landfill Number Five (SWMU 113), EPA ID No. NM7572124454**

Dear General Guth:

This letter is to acknowledge the September 8, 1993 receipt of a September 7, 1993 CAFB submittal: "ARARs for RFI Landfill 5 SWMU 113, Cannon AFB" and the October 1, 1993 receipt of two volumes of the September 1993 draft RFI Workplan for landfill #5.

At this time the Hazardous and Radioactive Materials Bureau (HRMB) would like to remind CAFB that ARARs established under the CERCLA/IRP program are not applicable to the HSWA Corrective Actions program. The CERCLA/IRP program cannot be substituted for the RCRA Facility Investigation program. CAFB must conduct the RFI process under the HSWA program.

As per the CAFB letter of July 23, 1993, addressing the RFI schedule, HRMB is to complete its review and comment on the September 1993 draft RFI Workplan within forty-five days of receipt (November 15, 1993) of the draft. HRMB will be unable to complete its review and comment by November 15, 1993 and has extended the deadline to November 29, 1993. This change has been communicated by phone to Dr. Janice Stowell, Environmental Flight, CAFB.
