Re: Approval of the RFI Phase I Report for Landfill 25,  
Cannon Air Force Base, EPA ID NO. NM7572124454

Dear Colonel Smith:

Thank you for your response dated November 1, 1993, to the Environmental Protection Agency (EPA) addressing our concerns at the September 30, 1993, meeting attended by the EPA, Cannon AFB, the Corp of Engineers, and Radian Labs. The EPA hereby approves the RFI Report for Landfill 25 submitted on September 13, 1993. The approved RFI Report consists of the Phase I RFI Report received on September 13, 1993, and your comments to our Notice of Deficiency dated November 1, 1993.

Before the EPA can approve a "No Further Action" on Landfill 25, Cannon Air Force Base must complete a monitoring well at the downgradient edge of Landfill 25 to the uppermost aquifer in order to analyze the groundwater for any contamination. Cannon Air Force Base shall submit a workplan for this work with the Phase II RFI Workplan for the Appendix III SWMUs.

If you have any questions, please contact Bill Hurlbut of my staff at (214) 655-8305.

Sincerely yours,

*Jack Divita*

*for* Allyn M. Davis, Director  
Hazardous Waste Management Division (6H)
