Dear Mr. Honker

Reference your letter, dated 19 Nov 93, granting approval for Phase I RFI Reports on Landfills 3 and 4. In this letter the EPA stated that before "No Further Action" can be granted, Cannon Air Force Base must install a monitoring well at the downgradient edge on these landfills to the uppermost aquifer in order to analyze the groundwater for any contamination.

As discussed during the March 1, 1994 meeting between Cannon Air Force Base representatives and Mr. Bill Hurlbut of your staff, we hereby request a 45-day extension to develop the work plan for the installation of these monitoring wells at landfills 3 and 4, making the required submittal date April 14, 1994.

Point of contact for this issue is Mr. John Ekhoﬀ and he may be reached at (505) 784-2739.

Sincerely

CHRISTOPHER S. LONG, Colonel, USAF  
Commander, 27th Support Group
