Dear Ms. Hoditschek

The regulations governing the operation of hazardous waste management facilities have been and continue to be revised. To maintain compliance with current regulations, the Cannon Air Force Base Resource Conservation and Recovery Act permit for our storage facility requires major revisions.

Our time line for the permit revision submission to your office is 30 Oct 94. We hope this helps you better plan your long-range work schedule. We look forward to working with your office on our modification.

Please feel free to contact Mrs. Vera Wood, at (505) 784-6022, if you require any additional information concurring this subject matter.

Sincerely

Christopher S. Long
