Dear Mr. Garcia

Attached are the sampling results for sampling performed at the downgradient wells at Landfill 5 on 16-17 Dec 96. We are gathering data by performing quarterly sampling at all wells at Landfill 5 for a period of one year. We will then have a statistical study done to determine background levels and determine if the landfill has had any effect on water quality.

If you have any questions, please contact Mr. Sanford Hutsell at (505) 784-6378.

Sincerely

W. P. ARD, Colonel, USAF
Commander, 27th Support Group
