Dear Mr. Garcia

In compliance with the Cannon AFB RCRA Part B Permit (Dec 89), Hazardous and Solid Waste Amendments (HSWA) Section, Module IV, I am providing formal notification to the New Mexico Environment Department (NMED) of two newly discovered potential Solid Waste Management Units (SWMUs).

The two newly discovered potential sites were found by my environmental flight staff during examination of old aerial photographs being utilized for computer Geographical Information System updates on 1 May 97. A copy of the photographic image with the location of the potential sites outlined is attached. Cannon AFB proposes to call the two new potential sites Area of Concern (AOC)-G and AOC-H, as illustrated on the attached photo image, until further direction is issued by NMED.

Questions concerning these newly discovered sites may be directed to Mr. John S. Pike or Mr. Sanford D. Hutsell, at (505) 784-4348.

Sincerely

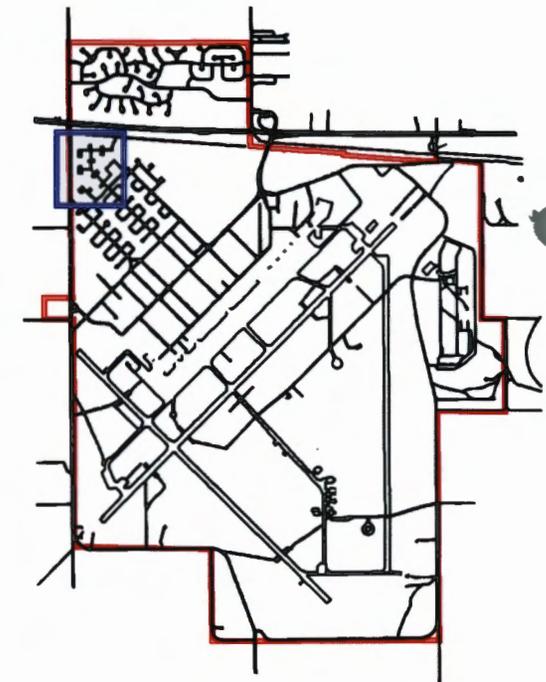

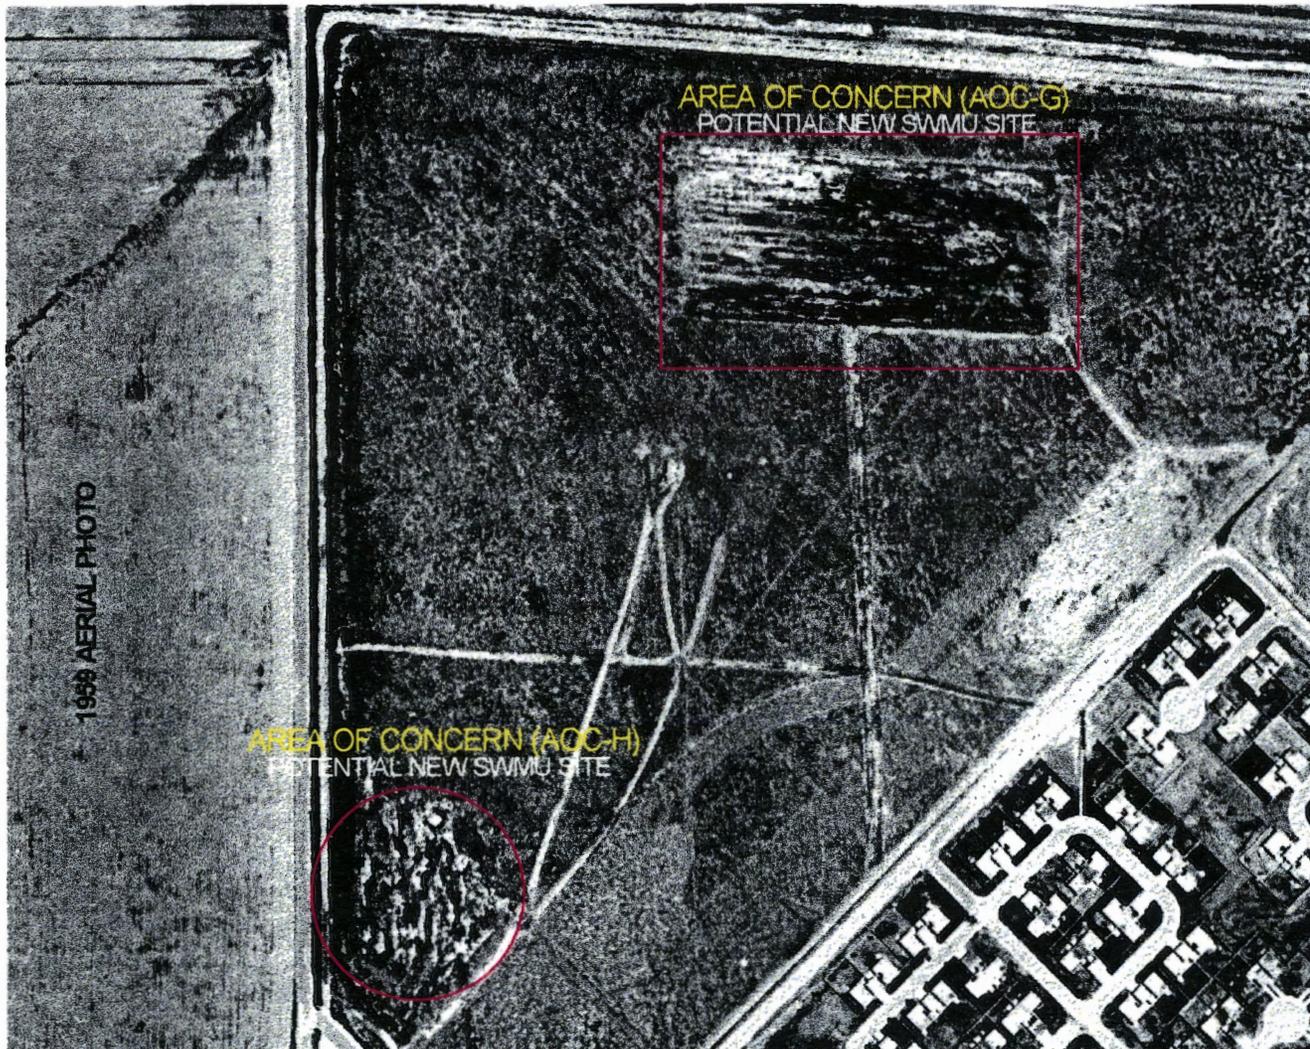

W. P. ARD, Colonel, USAF  
Commander, 27th Support Group
