Dear Colonel Utterback:

The Hazardous and Radioactive Materials Bureau (HRMB) of the New Mexico Environment Department has reviewed for technical adequacy the above-referenced Report, as required under the New Mexico Hazardous Waste Management Regulations. The Report is dated July 1999, and was received by HRMB on December 15, 1999.

After reviewing the Report, HRMB has found the Report to be technically adequate and approves the Report. The sites included in the Report may be removed from the listing of SWMU's in the HSWA module of your RCRA Permit if you submit a Class 3 permit modification request for removal of the SWMU's and that request is approved by HRMB.
