Cannon Air Force Base, New Mexico 88103-5214

**RE: U.S. ENVIRONMENTAL PROTECTION AGENCY (EPA) RCRA CLEANUP
REFORMS INITIATIVE GOALS OF THE GOVERNMENT PERFORMANCE
RESULTS ACT (GPRA)**

Dear Colonel Posner:

This letter is to notify you that your facility has been added to the list of baseline facilities that have been targeted to achieve two key RCRA Corrective Action Environmental Indicator (EI) Codes (CA725 and CA750) by year 2008. EPA collaborated with NMED to determine the facilities to be added to the 2008 GPRA Baseline. The EI Codes for CA725 (Human Exposures Controlled) and CA750 (Groundwater Releases Controlled) are facility-wide measures intended to measure corrective action program performance.

The New Mexico Environment Department (NMED) will be working, with your support, to achieve these goals set by EPA. To determine if your facility meets these goals checklists will be evaluated by NMED Hazardous Waste Bureau staff for each of these two measures. These checklists as well as more information on this initiative are provided at EPA's Website (http://www.epa.gov/earth1r6/6pd/rcra_c/pd-o/rcrabase.htm).
