VOLUNTARY CORRECTIVE MEASURES REPORT FIRE TRAINING
AREA No. 4 (FTA-4)
CANNON AIR FORCE BASE, NEW MEXICO
CANNON AIR FORCE BASE
EPA ID NO. NM7572124454
CAFB-05-002

Dear Colonel Posner:

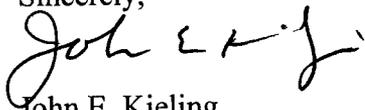

The New Mexico Environment Department (NMED) has completed its review of Cannon Air Force Base's (CAFB's) 2005 "*Voluntary Corrective Measures Report Fire Training Area No. 4 (FTA-4)*" Report. NMED hereby approves the report. However, fuel contaminated soil is still present at the site at concentrations greater than industrial total petroleum hydrocarbons (TPH) screening guidelines. CAFB must submit a work plan describing activities to achieve clean closure of the site. CAFB must use the clean up levels specified in the New Mexico Environment Department guidance document titled *Total Petroleum (TPH) Screening Levels*, (November, 2005). These guidelines can be found at <http://www.nmenv.state.nm.us/hwb/data/guidance>.
