RE: Work Assignment No. 06110.330.0002; State of New Mexico Environment Department, Santa Fe, New Mexico; General Permit Support Contract; RCRA Engineering Design Support for Cannon Air Force Base; Review of Response to Comments, Task 2 Deliverable

Dear Mr. Cobrain,

This letter serves as a deliverable for the above-referenced task order. This letter addresses the review of the response to comments and the incorporation of the responses in the Cannon AFB "March 2005" (received April 3, 2006) Response to (NMED) Comments on the Final Construction Completion Report Remedial Action at SWMU 101 – Sewage Lagoons, and replacement pages for the report, prepared by TetraTech EC.

The Response to Comments agreed to provide additional information, in replacement pages for the Report, except Specific Comment 5. The TechLaw review confirmed that the replacement pages provide additional information and explanation of the closure work, as indicated in the Responses. The groundwater monitoring reports referenced in the Response to Specific Comment 5 were not reviewed by TechLaw.

Except for the incorrect date (March 2005) on both documents, the Responses and replacement pages are appropriate and adequate to address the concerns raised in the NMED comments (ns).

This letter was sent via email to you at Dave.Cobrain@state.nm.us and Ms. Tammy Diaz at Tammy.Diaz@state.nm.us on April 12, 2006.

If you have any questions please call me at (303) 763-7188.

Sincerely,

June K. Dreith
Program Manager
