Pete:

I've reviewed the *SD-11 Implementation Work Plan* draft letter and it states that Cannon did not propose specific activities for removal of contaminated media in the work plan (which was the intent of NMED's July 19, 2006 letter to Cannon). I'm not sure what type of work that's planned for the near future, but any work that is completed at the SD-11 site without prior approval from NMED, is done at risk.
