Subject: RE: question

Ms. Cher,

Thanks for the second chance, my error. I'll get it to you tomorrow or early next week. Your mitigation solution is more than generous.

Respectfully,
Jerry

Jerry.....

Unlike the cover letter for the Corrective Action Completion Proposals (July 2008), the cover letter for the SWMU 101 document doesn't request a Class 3 permit modification to Cannon's permit. Please tweak the cover letter to formally request a Class 3 permit modification. I will go forward with the fee assessment letter. How's that sound? Can you get a revised cover letter to us in the next couple of weeks? An electronic copy will suffice. Any questions, simply let me know.

Thanks the response!
Cher

Cheryl,

Thanks, I've been attempting to finish this email all afternoon and your timing and question couldn't have been more perfect.

However, let me finish my spiel about said subject "SWMU 101". . . one of the pending milcon projects is the installation of a new effluent storage basin within the footprint of SWMU 101 - Sewage Lagoons.

Our program manager, Mr. John Rebman, will be forwarding the project plans to Ms. Davidson at NMED's Groundwater Pollution Prevention Section. The anticipated turnaround is mid-October. And at that time, if. . .

the Final No Further Action Report for SWMU 101 - Sewage Lagoons has received your review and CAC w/o controls status is granted the construction of the project can move forward.

Okay, now to answer your question, yes Ma'am, it is an official request for corrective action complete status.

Now my question, what do we have to do facilitate processing the request? J

Whew!

Balls in your court!

Jerry

Subject: question

Jerry.....is the document for SWMU 101 an official request for a Corrective Action Compete status, like the document for the 14 SWMUs (NFA Petition - Class 3 permit mod request) or simply a final report? Let me know when you can.

Thanks!

Cheryl Frischkorn
