Dear Mr. Leahy:

The New Mexico Environment Department (NMED) reviewed the Department of the Air Force's (Permittee) submittal *Final Report Supplemental Assessment of Areas of Concern (AOCs) A, B, and C* (the Report), dated December 2005. Based on the information provided in the Report, AOCs A, B, and C have been investigated and all detected soil contaminants were reported at concentrations below residential New Mexico Soil Screening Levels (NMSSLs). At this time, NMED will continue with the review of the Permittee's permit modification request (*Corrective Action Complete Proposals*, July 2008) that requests corrective action complete status for AOCs A, B, and C.
