Dear Ms. Stewart

Cannon Air Force Base, NM requests a due date extension to respond to New Mexico Environment Department (NMED) comments in a letter dated September 30, 2009 regarding the Accelerated Corrective Action Work Plan for SWMU 31, Aerospace Ground Equipment (AGE) Maintenance Facility Shop Pad, Cannon Air Force Base, New Mexico, July 2009. The date extension is requested to allow sufficient time to properly address the number and scope of the comments. There was also a miscommunication between project stakeholders that required resolution. We recommend a conference call with NMED the week of November 15 at your convenience to further discuss NMED's comments before proceeding.

Cannon AFB appreciates our partners, NMED, consideration in this matter. If you have any questions, please contact Mr. Hugh G. Hanson, Asset Management Flight, at (575) 784-6031.

Sincerely

Michael A. Poston, YF-03
