Dear Ms. Stewart

Cannon Air Force Base, NM is requesting a due date extension from the New Mexico Environment Department (NMED) for submittal of the Closure Work Plan for Solid Waste Management Units 70 and 71, Cannon AFB, New Mexico for two (2) reasons. First, some, but not all of the historical documents requested by NMED have been located. And second, additional sampling requests require added project scope. The increase in project scope will add significant delays in sample collection and analysis plus data evaluation and integration into an updated report.

If you have any questions, please contact Mr. Hugh G. Hanson, Asset Management Flight, at 575- 784-6391.

Sincerely

  
RONALD A. LANCASTER, YC-07
