Santa Fe NM 87505-6063

Dear Mr. Kieling

Additional analytical requests from NMED, listed in the March 2012 Approval with Modifications letter for the *Work Plan for Monitoring Well Installation at Landfill No. 25, Cannon AFB, NM*, are unable to be performed within the current well installation contract. To avoid a contract modification, Cannon AFB requests this well installation be synchronized with our annual groundwater monitoring event, scheduled for October 2012. This allows additional sampling to occur following the well installation with no contract modification or increased costs. Cannon AFB requests a 120-day extension (15 January 2013) for submittal of the Landfill-25 Well Installation Report.

If you have any questions regarding this request, please contact Mr. Matthew Higginbotham, Environmental Restoration Program Manager at (575) 784-6031.

Sincerely

DAVID C. PIECH, Colonel, USAF
