Dezbah-

I got your phone message this morning. Sorry to hear of your local phone and email problems. It happens to us on at least a monthly basis if that's any consolation.

We received a letter from Edward K. Goodhue, 1st Lt., CAFB yesterday. It states the notice would be published last Friday and the public meeting would be held on June 5, 2013. Dave said (this morning) that a delay of a few days shouldn't make a significant difference as long as the meeting is held within 30 days of the beginning of the public notice. June 5 should be close enough and I'll print a copy of your email below for our administrative record.

Thanks,

Daniel Comeau

Dan,

Thank you for looking into those SWMUs; it's consistent with what I saw in the record a few months ago. If I recall correctly, the "additional characterization and removal" for SWMU 126 was communicated in a letter. The Air Force seems certain that they completed the investigations, submitted a CAC Proposal, and held the public meeting for SWMUs 71 and 126. I'll let Cannon know.

Also, that public notice is not published (related to SWMUs 31, 34, 78, 85, 95, 110 – 112). We've been charged for it, but it hasn't been published. It was supposed to run today, now the paper says Tuesday. Cannon drafted a transmittal letter and it was due to arrive at your office today. If there anything you would like me to do (e.g., letter), let me know.

Thank you for your help, I appreciate it.
Dezbah

Dezbah-

(I tried to call but the line was busy).

It looks like you are correct re: SWMU 71. The work plan (for SWMUs 70 and 71) was approved 7/6/2010. Pat Stewart's CAFB SWMU/AOC status table indicates: "Work on hold for budgeting." Whatever that means. We have no record of receipt of an investigation report being submitted for the actual work.

In the case of SWMU 126, Pam Allen didn't come with anything on it (but I'm not sure what search terms she used). Pat's summary indicates "Add'l characterization & removal being considered (CAFB 10/12/2007)". I don't know what that was based on...email or t-com with Cannon?

Sorry I couldn't be of more help.
