January 10, 2020

Christipher N. Gierke  
Remedial Project Manager  
AFCEC/CZO  
506 N. Air Commando Way  
Cannon AFB, NM

Mr. David Cobrain  
Acting Chief, Hazardous Waste Bureau  
New Mexico Environment Department  
2905 Rodeo Park Drive East, Bldg. 1  
Santa Fe NM 87505-6313

Dear Mr. Cobrain

In regards to RFI Report at DP034, due to delays in starting field work because of the holidays, and a required hold time of 21 days for the Radui-224 test, Cannon Air Force Base (AFB) has determined an additional extension will be require to submit the report. Field work was completed January 10th. Therefore, Cannon AFB is respectfully requesting a 120 day extension for the submittal of the RFI Report at DP034. This will extend the date the document is due from February 20, 2020 to June 19, 2020. The extension will allow adequate time for sample analysis, report drafting, review, Command approval, and submission of the report.

Cannon AFB appreciates the valued working relationship established with you and your department. If you have any further comments or questions pertaining to the referenced document, please contact please contact me at (575) 904-6744 or at christopher.gierke@us.af.mil.

Sincerely

C.N. GIERKE, GS-12, AFCEC  
Remedial Project Manager
