Mr. Kevin Pierard
Chief, Hazardous Waste Bureau
New Mexico Environment Department
2905 Rodeo Park Drive East, Bldg. 1
Santa Fe NM 87505-6313

Dear Mr. Pierard

Cannon Air Force Base (AFB) is respectfully requesting a 365-day extension for submitting the *Facility-Wide Groundwater Monitoring Plan Cannon Air Force Base*. With NMED concurrence, this request will extend the due date from April 30, 2021 to April 30, 2022. This extension is required because accomplishing a complete update of the monitoring plan is outside the scope of the current contract. Therefore, we must budget, and begin the contracting process to procure a contract to address this requirement. Once the contracting process has been completed we will then proceed to the drafting, comprehensive review, finalization, staffing for signature, and final submission to NMED.

Cannon AFB appreciates the valued working relationship established with you and the department. If you have any further comments or questions pertaining to the referenced document, please contact me at (575) 904-6744 or at christipher.gierke@us.af.mil.

Sincerely

C.N. GIERKE, GS-12, AFCEC
Remedial Project Manager
