Dear Sirs:

During early 1981, pursuant to statute, we obtained hazardous waste generator identification numbers for the locations identified in the attached list. Our purpose in obtaining the identification numbers was to facilitate the removal of telecommunications equipment, some of which contains corrosive or toxic substances. It appears at this time that we will not be removing telecommunications equipment from those locations in the near future and, therefore, we no longer have need for an identification number. We would like to have these sites removed from the list of hazardous waste generator locations. We will, of course, obtain an identification number at such time and for those locations where we have definite plans for the removal of hazardous material.

Your cooperation in assisting us will be greatly appreciated. If it is necessary to complete a form in order to accomplish our goal, please forward the appropriate form. If no form is necessary, then we understand, unless we hear from you to the contrary, that this letter will suffice to remove the attached locations from your list.

If you have further questions or if I may be of assistance, please do not hesitate to contact me.

Very truly yours,

*Elizabeth Hernandez*
