**RE: Compliance Evaluation Inspection**

Dear Mr. Hall:

On April 2, 1992 your mercury meter remediation project was inspected by John Tymkowych and Michael Le Scouarnec of the Hazardous and Radioactive Materials Bureau. It was concluded that the remediation project is presently in compliance with the New Mexico Hazardous Waste Management Regulations (HWMR-6).

I would like to thank Ms. Sandra Miller and Mr. Joe Pat Saiz for their cooperation during the inspection.

Please call Mr. Michael Le Scouarnec at 827-4300, if you have any questions in the future.

Sincerely,

Edward L. Horst, RCRA Program Manager  
Hazardous and Radioactive Materials Bureau
