On May 2, 2022, the New Mexico Environment Department ("NMED") conducted a hazardous waste Compliance Evaluation Inspection ("Inspection") at AAMCO Transmissions ("AAMCO") located at 6629 Lomas Blvd. NE, Albuquerque, New Mexico ("Facility"). Based on observations and review of the information obtained, NMED has determined that your Facility is a Very Small Quantity Generator ("VSQG") of hazardous waste as defined in 40 Code of Federal Regulations ("CFR") 279 and was in compliance with the New Mexico Hazardous Waste Management Regulations 20.4.1 New Mexico Administrative Code.

AAMCO performs maintenance and repairs on transmissions for individual and commercial vehicles. Wastes generated at this facility include used oil and floor sweep from cleanups of used oil.
