Pollution Prevention & Waste Minimization Suggestions, Technical Assistance Referrals

Find a metal lid for container of rags.

I will find out if paint + sand cango on driveway, from sand blaster.

Keep an eye on carburetor cleaner can for corrosion

Questions, Concerns, Comments

This shop is very environmentally conscious. It looked good. No oil spills.

Facility ABC Machine Shop EPA# NM10986682144

Process Information

Process That Generates Waste	Waste(s) Identified	Management location/how collected /ultimate destination	Waste Code	Amount Per Month
Machining Metal	Soluble Oil	Inside shop - add water - never waste oil		
Cleaning parts	Kerosene	Inside shop - parts washer - only add kerosene - don't waste		
Machine gear boxes	85-90 weight gear oil	When work on gear boxes dump oil in used oil tank - E+E Enterprise		5 gal/year
Sand blast paint	Paint sand	Is spread on driveway		5 gal/5 year
Shop Rags	Rags	Collected in open metal container National Linen		
Carburetor Cleaner		Had container 10 years - still works fine	F001 F002 D001, D002	
Scrap metal		Sent to Scrapyard when price goes up.		

ABC Machine

1 machine

used → Sateble Oil 1985 - never changed out oil

1 Parts washer - Kerosene - never changed out

Gear Boxes - 85-90 weight lubricating oil

Sand blaster - blast paint off - goes to driveway

very clean floor

Shop rags - National linen - uncovered
rag container

Carburetor Cleaner - watch for corrosion.

Scrap metal to scrap person.

E+E waste oil - 5 gal oil
