**RE: COMPLIANCE EVALUATION INSPECTION  
3B-1 COMPRESSOR STATION  
EPA ID# NMD986682862**

Dear Mr. Long:

On February 7, 2018, the New Mexico Environment Department ("NMED") conducted a hazardous waste Compliance Evaluation Inspection ("Inspection") at the 3B-1 Compressor Station, located 3.5 miles northeast of Blanco, New Mexico. Based on that Inspection and review of the information obtained, NMED has determined that your facility is a Conditionally Exempt Small Quantity Generator of hazardous waste, as defined in the Notification of Regulated Waste Activity Instructions (Environmental Protection Agency Form 8700-12). Further, the NMED observed no violations of the New Mexico Hazardous Waste Management Regulations (20.4.1 NMAC).

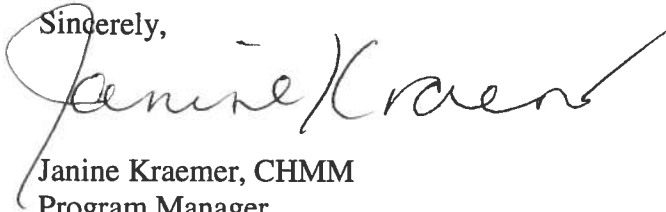

Thomas Long

Page 2

The 3B-1 Compressor Station is processing plant that compresses incoming natural gas for distribution throughout the state and various parts of the country. Wastes generated at this facility include used oil and mercury containing spent lamps.

No further action is required at this time. However, this letter does not relieve the 3B-1 Compressor Station of its obligation to comply with any other applicable laws and regulations.

If you have any questions regarding this letter, please contact Jaime Rodriguez of my staff at (505) 222-9569 or by email at [jaime.rodriguez@state.nm.us](mailto:jaime.rodriguez@state.nm.us).

Sincerely,

A handwritten signature in cursive script that reads "Janine Kraemer". The signature is written in black ink and is positioned above the typed name and title.
