**RE: COMPLIANCE EVALUATION INSPECTION
UPS CUBA CENTER
EPA ID# NMR000001776**

Dear Mr. Domenico:

On July 23, 2013, the New Mexico Environment Department (NMED) conducted a site visit as part of a hazardous waste Compliance Evaluation Inspection at UPS Cuba Center, located at 6359 S. Main St., Cuba. Based on that site visit and review of information submitted by United Parcel Service, the NMED has determined that your facility is a Conditionally Exempt Small Quantity Generator of hazardous waste as defined in the Notification of Regulated Waste Activity Instructions (EPA Form 8700-12). Further, the NMED observed no violations of the New Mexico Hazardous Waste Management Regulations (20.4.1 NMAC).

UPS Cuba Center is a sort facility for United Parcel Service. Packages are delivered to the facility by trailer, where they are unloaded to package trucks for delivery. The facility generates hazardous waste from damaged and leaking packages. UPS Cuba Center had not had a leaking hazardous waste package in the past 3 years.

No further action is required at this time. However, this letter does not relieve UPS Cuba Center of its obligation to comply with any other applicable laws and regulations.

Jamie Domencio
