RE: NM GENERATOR FEES OWED at WALGREENS/TARGET STORE(S)

Dear Mr. McKeveny:

Please find the enclosed copies of the Annual Hazardous Waste Fees invoices for calendar years of 1997 and 1998. Also, I've provided you with information on generator fees, which will be owed on August 1, 2000 for the previous 1999 calendar year for your records. Since all the fees due for 1997 and 1998 are past due, there is a late fee of \$100.00 plus a 1% per month penalty on all fees due after August 1 payment due date for that next calendar year. The following is a breakdown of the fees owed:

NMED SUMMARY OF TOTAL FEES DUE:

1997 Business Fees with Past Due Fees	\$ 2,360.00
1998 Business Fees with Past Due Fees	\$ 4,982.00

(based on Qualex information provided or NMED records)

Administrative (one time late fee)	\$ 100.00
Current Past Due Fees Owed thru 2/29/00	\$ 7,442.00
1999 Business Fees (due August 1, 2000)	\$ 7,600.00

In order to avoid additional late charges, please submit past due fees by 3/1/00. Please complete the following Annual Hazardous Waste Fees invoices and return them along with your payment to our office. (All the above SQGs and LQGs are required to pay annual Business Fees, per 20 NMAC 4.3 Annual Hazardous Waste Fees).

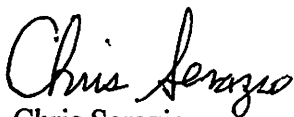

I have provided you a summary of fees due for calendar year 1999. It is the O/O responsibility to determine the generator's status for each calendar year. The current Annual Hazardous Waste Fees for calendar year 1999 will be mailed ~April 2000. These fees are due by August 1, 2000.

According to NMED's data base records all of the above generators are located in the Albuquerque metropolitan area and the northern part of the State. Please advise NMED, if all of the other Walgreen and Target Stores in the remaining cities of NM have your 1-Hr. photo lab with either the spent silver (D011) fixer being managed on-site via a silver recovery unit, or shipped off site to a designated facility for recycling or no units at all.
