The New Mexico Hazardous Waste Generator Fees are comprised of two parts, a Business Fee and a Generation Fee. The Business Fee is determined by your generator status and the Generation Fee is determined by the amount of non-recycled hazardous waste, which is generated by the facility. It is important to note that your generator status is determined by adding the recycled and non-recycled hazardous waste generated by your facility each month.

GENERATOR STATUS:

- If you generate 220 lbs. (100 kg.) or less of hazardous waste (recycle and non-recycled) per month, you are a Conditionally Exempt Small Quantity Generator (CESQG).
- If you generate more than 220 lbs. (100 kg.) but less than 2,200 lbs. (1000 kg.) of hazardous waste (recycled and non-recycled) per month, you are a Small Quantity Generator (SQG).
- If you generate more than 2,200 lbs. (1000 kg.) of hazardous waste (recycled and non-recycled) per month, you are a Large Quantity Generator (LQG).

NOTE: IF YOU GENERATED SQG OR LQG QUANTITIES IN ANY CALENDAR MONTH, THAT IS YOUR GENERATOR STATUS FOR THE CALENDAR YEAR COMPLETE SECTION II TO DETERMINE YOUR GENERATOR STATUS AND GENERATION FEE.

IF YOU ARE A CESOG, YOU DO NOT OWE ANY FEES. PLEASE COMPLETE THIS FORM AND RETURN TO OUR OFFICE.

CAP FEES: The aggregate amount of annual generation, imported waste compensating and business fees to be paid per person [as defined at 20 NMAC 4.3.107(B)(12)] for any year based on this Part (20 NMAC4.3) shall be limited to:

One facility.....	\$35,000.00
Two facilities.....	\$50,000.00
Three or more facilities.....	\$65,000.00

Example : If your facility is a treatment, storage and disposal facility and generates non-recyclable hazardous waste in amounts which will exceed a total fee greater than the amounts given in the above table, you only pay the CAP fee indicated.

SECTION III: BUSINESS FEES

Based on the generator status determined from Section II, check the appropriate category for this facility and pay the appropriate Business Fee.

_____ Conditional Exempt Small Quantity Generator.....	\$ 0.00
_____ Small Quantity Generator.....	\$ 200.00
<u> X </u> Large Quantity Generator.....	\$2,500.00

SECTION IV: PAST DUE FEES

Fees owed for previous years are calculated the same as above and are then multiplied by 1 %. This amount is multiplied by the number of months that fee is past due:

Calculated Fee x 1% x Number of months past due= Late Fee

Example: \$235 x.01 x 10 months= \$23.50

This late fee is added to the calculated fee and the administrative charge of \$100 for the total back fee owed for that year:

Calculated Fee + Late Fee +\$100= Total Past Due Fee

Example: \$253 + \$23.50 + \$100= \$358.50

If you are paying past due fees for multiple years, you pay the administrative charge one time only. The fees for each year are due on August 1st of the next year. **Example: Fees for 1993 were due on August 1, 1994. Please calculate past due fees and enter them below:**

1995 fees	\$ 0.00
1996 fees	\$ 0.00
1997 fees	\$ 0.00
1998 fees	\$ 0.00
1999 fees	\$ 0.00
Administrative fee	\$ 100.00
Total Past Due Fees Owed	\$ 0.00

SECTION V:	TOTAL FEES DUE
-------------------	-----------------------

Total Fees (Business Fees and Generation Fees)	
Owed for 1999 Calendar Year.....	\$ 2,500.00
2000	
Total Past Due Fees Owed (if applicable).....	\$ 0.00
TOTAL	\$ 2,500.00
