Dear Mr. Graffius:

The New Mexico Environment Department (NMED) provided the RSC store located at 9170 Coors Blvd., NW, in Albuquerque a Compliance Assistance Visit to address potential hazardous waste issues and pollution prevention options on May 21, 2003. Based on observations and a review of the information obtained, the NMED determined that all conditions were in compliance and that the facility is operating as a Conditionally Exempt Small Quantity Generator.

Should you have any changes to your operation and would like our assistance regarding waste management issues, the NMED would be glad to revisit your store to help. The NMED appreciates your efforts to support the environmental health goals of New Mexico and to adhere to the Hazardous Waste Management Regulations.
