**RE: COMPLIANCE EVALUATION INSPECTION
NMARNG – UPS AND FO WHSE
EPA ID# NMR000000182**

Dear Mr. Kesner:

On October 1, 2013, the New Mexico Environment Department (NMED) conducted a hazardous waste Compliance Evaluation Inspection at NMARNG – UPS AND FO WHSE, located at 66 Bataan Blvd, Santa Fe. Based on that inspection and review of the information obtained, the NMED has determined that your facility is a Small Quantity Generator of hazardous waste as defined in the Notification of Regulated Waste Activity Instructions (EPA Form 8700-12). Further, the NMED observed no violations of the New Mexico Hazardous Waste Management Regulations (20.4.1 NMAC).

NMARNG – UPS AND FO WHSE serves as a clearing house for accountable property for National Guard units throughout New Mexico. Accountable property returned from the units to the NMARNG – UPS AND FO WHSE is subjected to accounting clearance, determination, and disposition either to another unit or back to central distribution, recycling, or disposal as waste. The facility generates spent, off-spec, expired, and/or non-serviceable items such as universal waste batteries, ignitable wastes (gas cylinders), and toxic metals associated with various types of equipment.

No further action is required at this time. However, this letter does not relieve NMARNG – UPS AND FO WHSE of its obligation to comply with any other applicable laws and regulations.
